Eagles,

The Fall 2022 semester begins Monday, but there's still time to register for classes. Check out the available classes at [www.msjc.edu/schedule](http://www.msjc.edu/schedule).

New this semester are 8-week online classes designed to fit your life in Business Administration, Economics, and Water Technology. These classes, which also begin Monday, are designed to help you succeed by focusing on fewer classes at a time.

Typically, a full-time student might take four or five classes over an 18-week semester.
