

READY *career education*

at your local community college

Newsletter

February 2018

Welcome!

As chair of the Inland Empire/Desert Regional Consortium of our 12 community colleges, it is my honor to work with my colleagues in coordinating, planning, and promoting career education and workforce development programs at our diverse campuses. Career education is a cornerstone of community colleges and this newsletter – the first in a series quarterly bulletins – is aimed at keeping you apprised of our successful efforts at building and strengthening the regional economy. As a product of our community colleges myself, I can attest to the great work being done at campuses from Barstow and Blythe to Chaffey and Mt. San Jacinto, and I encourage you to explore even more articles posted on our website that further details the impact we are having. Thank you so much for your time and for your interest!

-Julie Pehkonen
