## Why Career Education?

Career Education is not just about gaining practical skills and securing a job. It's also about setting the foundation for a rewarding and secure future... *for yourself, for your family, and for your community.*

With more than 1,000,000 new "middle skills" jobs projected to surface by 2025, there has *never been a better time* to secure a future-ready Career Education.

Ready to shift your career into high gear? Your local community college can help you start up a bold new future, *right away!*

## Commerce Ready

Whether it's mass transit or Mack trucks, the Advanced Transportation & Logistics sector keeps our economy *moving* by making sure people and products get where they're going. As vehicles become more and more sophisticated, this sector will continue to provide a wide range of highly transferable job opportunities.

In addition, California is a global trade giant, supporting more than 4.9 million jobs in trade and logistics-related fields. According to a recent study, logistics was the Inland Empire's most concentrated and second-fastest growing industry between 2014 and 2017.

Due to the ever-increasing role of technology in today's transportation and logistics systems, those who can use computers and computerized equipment will continue to find themselves in high-demand, well into the future.
