Why Career Education?

With an in-demand career education from an Inland Empire/Desert-region community college, local professionals are getting the in-demand skills they need to make it to *move up the ladder*.

But career education is not just about gaining practical skills and securing a great job. It's about *laying the foundation* for a rewarding and safe future... *for yourself and for your family*.

With 1,000,000 new "middle-skills" jobs projected to surface by 2025, there has *never been a better time* to secure a future-ready career education.

Next-Level Ready

Agriculture is a \$47 billion industry in California, making our state the most prolific producer of agriculture in the U.S., and the fifth largest provider in the world. Because of this, demand for agricultural and natural resource specialists throughout the state is high,

with more new job openings every year than qualified applicants to fill them.

Fast-growing and high-wage careers include agricultural marketing and sales personnel, agricultural engineers, laboratory and research technicians, environmental scientists, landscape and turf managers, and pest management specialists.

Your career success story begins here!
