Why Career Education?

With an in-demand career education from an Inland Empire/Desert-region community college, students are getting the practical skills they need to ensure the well-being of their *families*, their *communities*, and their *futures*.

Not only do career education graduates start their careers faster and with higher salaries than those with just high school diplomas, they enjoy more secure futures because they are less likely to be unemployed. Currently, career education graduates earn an average of \$66,000 five years after attending—almost \$27,500 MORE than those with general-focus Associate degrees, meaning that there has *never been a better time* to start your future-ready career program.

Life Ready

The travel and tourism market is one of the world's largest industries. In the U.S. alone, this industry supports nearly 7.6 million jobs. California's unique position

as a premier travel destination makes this an exciting sector to be a part of.

Certificate and associate degrees available in retail, hospitality, tourism, and recreation are not only transferable to related CSU and UC programs, but will also qualify you for many immediate employment opportunities. Since many of these sectors depend on the work of part-time employees, opportunities abound for students who want to gain valuable work experience while earning a paycheck and going to school.

As a bonus, these jobs frequently offer unique travel options and industry discounts.

**It's time to make
your career a reality!**
