READY career
education
at your local community college

Gear up & get **READY**

If the COVID-19 pandemic taught us anything, it's that the Inland Empire/Desert's Career Education programs are about more than just helping you land a job—they're about building a foundation for a safe and secure future for yourself, for your family, and for your community.

That's why the Inland Empire/Desert's community college career education programs are offering more online options, more free non-credit courses, and more affordable, career-ready certificates and degrees than ever. The best part? All of these programs can be completed in two years or less, and many career-ready certificates can be completed in just a couple semesters!

Whether you want to rev up your future or reinvent your career, the Inland Empire/Desert's community college career education programs are here to help you gear up and get ready for whatever the future may bring!

Career Educated Professionals Are In Demand in Every Industry

Fast, focused career programs can lead to employment in as little as one semester. The Inland Empire/Desert community colleges offer virtually unlimited options for career education degrees and certificates in high-demand fields like business, healthcare, cybersecurity and IT, energy, construction, and more!

Regional job growth is expanding at nearly double the national rate.

Middle-skill jobs, which require education beyond high school but not a four-year degree, make up the largest part of the labor market in the United States!

Career education certificate holders increase their earnings by nearly 30% on average, according to the Aspen Institute.

70% of all future jobs will require more education than a high school diploma.

Why the “Middle Skills Jobs Gap” is Good for You

Middle-skill jobs are those occupations that require more education than a high school diploma, but not a four-year degree. According to the Public Policy Institute of California, California was predicted to be facing a middle-skill job gap of up to 1.5 million workers by 2025. Not surprisingly, this gap increased due to the COVID-19 pandemic. This is especially alarming for the Inland Empire/Desert region, which is among the state’s fastest-growing, yet least-prepared economies, in terms of education and training.

While this demand poses a challenge for regional employers, it represents a huge opportunity for people looking for secure careers and great salaries. All you need is the right education to gain entry into these in-demand fields. And that’s exactly what the Inland Empire/Desert’s community college career education programs provide.

If you’re ready for a high-demand, high-paying career, you’ve come to the right place!

Ready for Success?

FREE student-focused services like these are here to make sure Inland Empire career education students get everything they need to succeed.

- Academic Tutoring
- Foster Student Success Programs
- Career Placement Services
- Childcare
- Disabled Students Programs & Services
- Extended Opportunity Programs & Services
- Financial Aid
- Food Pantry
- Student Equity Programs
- Mental Health Services
- Veterans' Services

Ready for **FREE** College?!

Did you know first-time, full-time college students (excluding dual-enrollment students) who live in California are eligible for free tuition at many of the Inland Empire/Desert's community colleges? Contact your regional community college to learn more!

Advanced Manufacturing

At a Glance...

With an estimated 125,930 annual job openings, but only 5,565 graduates to fill them, manufacturing and product development remains a promising sector for those who like to work with their minds and hands. While certain kinds of manufacturing jobs are in decline, high-tech manufacturing continues to grow, especially in the areas of 3D printing and high-speed, computerized numerical control machining.

Employers in this sector look for technicians who are at ease in the mechanical world and able to apply scientific and technical principles to manufacturing processes. Students of manufacturing and product development learn about manufacturing processes and systems, and can follow a wide variety of paths, including graphic design production, machine tooling and forming, welding and materials joining, and product innovation and design.

Opportunities for advancement are plentiful, as technological advancements make higher-skill jobs in basic research and technology development, product and process engineering and design, operations and maintenance, transportation, testing, and lab work become more prevalent.

Ready to...

- ***Work with your head and hands to bring product designs to life?***
- ***Use mechanical skills to build and maintain heavy machinery?***
- ***Learn a practical trade that is in demand no matter where you live?***

Fun Fact:

California's manufacturing sector boasts **125,930** annual job openings, but only **5,565** graduates with the right education to fill them!

“

You're a craftsman, but you're also a precision manufacturer of each product. It's amazing what we can accomplish with these new technological advancements. That's the beauty of this, it just never ends.

”

**– Miguel A.
San Bernardino Valley College
Manufacturing, Industry, and Technology Student**

Types of Careers

- CNC Programmer
- Machine Technician
- Industrial Electrician
- Cabinetmakers & Bench Carpenter
- Tool & Die Maker
- Power Plant Operator
- Fabric & Apparel Pattern Maker
- Certified Welder

Salary Snapshot

- First-Line Supervisors of Production & Operating Workers \$62,504 / \$30.05 hourly
- Industrial Machinery Mechanics \$63,669 / \$30.61 hourly
- Industrial Engineers \$80,226 / \$38.57 hourly
- Mechanical Engineers \$87,651 / \$42.14 hourly
- Welders, Cutters, Solders & Brazers \$40,643 / \$19.54 hourly
- Electrical & Electronics Engineering Technicians \$72,634 / \$34.92 hourly
- Electrical & Electronics Repairers \$71,323 / \$34.29 hourly
- Industrial Engineering Technicians \$73,341 / \$35.26 hourly
- Occupational Health & Safety Specialists \$59,758 / \$28.73 hourly
- CNC Machine Tool Programmers \$71,344 / \$34.30 hourly

Industry Sector Pathways:

- CAD/CAM, Computer Numerical Control (CNC)
- Industrial Automation, Supply Chain Technology
- Industrial Maintenance Mechanic, Instrumentation Technology
- Machine Technology, Machine Operator, Basic/Conventional Machining, Tool & Die
- Operations and Production Management
- Quality Assurance
- Supply Chain Management
- Welding, SMAW, GTAW, FCAW, Stick, TIG

Advanced Transportation & Logistics

At a Glance...

Whether it's scooters or jet airplanes, the Transportation sector plays a crucial role in our "on-the-move" world by making sure people and products get from one place to another. As vehicle components and repair techniques become increasingly sophisticated, the Transportation sector will continue to provide highly transferable employment opportunities in a wide range of related occupations.

When you think about the role that transportation plays in all of our personal and professional lives, it's obvious why transportation professionals are so important. Students who have good "mechanical" minds and enjoy working with their hands can choose from three main career pathways: Aviation and Aerospace Transportation Services; Collision Repair and Refinishing; and Vehicle Maintenance, Service, and Repair.

Areas of projected market growth include the use of Global Positioning Systems (GPS) and Radio Frequency Identification (RFID), developments in rocket technology, super-capacity jet airplanes, hybrid and hydrogen fuel-cell technology, and the use of biodiesel and other alternative fuels.

Ready to...

- **Apply your knowledge of mechanics to maintain machines?**
- **Use the latest technology to identify and solve mechanical problems?**
- **Learn skills that will be in demand no matter where you live?**

If you are a hands-on learner and don't mind getting your hands dirty, this is the perfect industry for you because what is being taught at school is something you're going to apply in the future.

**– Sarahi G.
Chaffey College
Manufacturing, Industrial Design
and Transportation Student**

Fun Fact:

In California, there are an average **227,420** job openings every year, but only **9,708** graduates with the right education to fill them!

Types of Careers

- Bus & Truck Mechanic
- Automotive Master Mechanic
- Diesel Engine Specialist
- Motorcycle Mechanic
- Auto Glass Installer
- Dispatcher
- Service Writer
- Licensed Smog Technician
- Avionics Technician
- Airframe and Power Plant Technician
- Aircraft Mechanic/Service Technician
- Air Traffic Controller
- Commercial Pilot

Salary Snapshot

- Heavy and Tractor Trailer Truck Drivers
\$49,733 / \$23.91 hourly
- First-Line Supervisors of Mechanics, Installers & Repairers
\$79,934 / \$38.43 hourly
- Bus & Truck Mechanics / Diesel Engine Specialists \$49,691 / \$23.89 hourly
- Transportation, Storage & Distribution Managers
\$92,435 / \$44.44 hourly
- Logisticians \$79,914 / \$38.42 hourly
- Aircraft Mechanics & Service Technicians
\$73,278 / \$35.23 hourly

Industry Sector Pathways:

- Automotive Air Conditioning/Heat
- Automotive Alignment, Brakes, Steering, Suspension, Driveability, Detailer/Porter
- Automotive Electrical Systems
- Automotive Management: Repair Shop
- Automotive Technology, Automotive/General Service Technician
- Aviation Maintenance, Airframe, Powerplant, Avionics Technology
- Collision Repair, Refinishing
- Diesel Technology, Heavy/Medium/Light Duty Diesel Trucks
- Engine Performance, Inspection, Smog/Emissions Technician
- Engine Rebuilding, High Performance Automotive, Fabrication
- Geographic Information Science/Systems (GIS), Geospatial Technician
- Transmissions

Agriculture & Natural Resources

At a Glance...

When most people think of agriculture, they think of farming... but employees in this industry work everywhere from labs to veterinarians' offices, and beyond.

Agriculture is a \$50 billion industry in California, making our state the most prolific producer of agriculture in the U.S., and the fifth largest provider in the world. Because of this, demand for agricultural and natural resource specialists throughout the state is high, with more new job openings every year than qualified applicants to fill them.

Fast-growing and high-wage careers include agricultural marketing and sales personnel, agricultural engineers, laboratory and research technicians, environmental scientists, landscape and turf managers, and pest management specialists.

Ready to...

- *Explore the relationship between humans and the environment?*
- *Understand how to help plants and animals thrive?*
- *Diagnose, test, and repair large equipment, using complex technology?*
- *Solve real-world problems with practical, hands-on solutions?*

Fun Fact:

Riverside County produces more than **1.3 billion dollars** in milk, table grapes, dates, and woody ornamentals every year!

Types of Careers

- Land Use Planning Technician
- Field Representative Technician
- Animal Health Technician
- Greenhouse Grower/Manager
- Soil Conservation Technician
- Landscape Designer
- Forestry Technician
- Artificial Inseminator
- Ag Sales and Service Technician
- Ag Import/Export Technician
- Ag Equipment Service
- Ag Equipment Setup Foreperson
- Farm Equipment Mechanics

Salary Snapshot

- Pest Control Workers \$50,066 / \$24.07 hourly
- Agricultural and Food Science Technicians \$72,134 / \$34.68 hourly
- Farmers, Ranchers & Other Agricultural Managers \$34,798 / \$16.73 hourly
- Forest & Conservation Technicians \$43,888 / \$21.10 hourly
- Farm Equipment Mechanics & Service Technicians \$48,339 / \$23.24 hourly
- Environmental Engineering Technicians \$68,203 / \$32.79 hourly
- Water & Wastewater Treatment Plant & System Operators \$71,323 / \$34.29 hourly
- Geological & Hydrologic Technicians \$50,357 / \$24.21 hourly

Industry Sector Pathways:

- Agriculture/Natural Resources
- Desert Ecologist/Naturalist
- Field Ranger
- Animal/Equine Science Specialist
- Animal Health Technician
- Environmental Horticulture and Restoration
- Environmental Horticulture
- Arborist
- Landscape/Irrigation
- Turfgrass Management
- Plant/Crop Science
- Pest Management
- Hazardous Materials Specialist

Art, Media & Entertainment

At a Glance...

The days of working in the arts and being a “starving artist” are over. Entertainment, especially in California, is big business. According to PricewaterhouseCoopers, the U.S. media and entertainment market is projected to grow to \$825 billion by 2023, making it the largest media and entertainment market in the world. As the future of media continues to merge with new and emerging technologies, the demand for technologically savvy designers and creative professionals will continue to grow.

Unlike other career pathways, jobs in the Arts, Media, and Entertainment sector tend to be cross-disciplinary, demanding a constantly changing combination of imaginative and hands-on skills. Students in this sector generally study across a mix of several different academic disciplines, in order to acquire a mix of technical and creative skills, as well as the ability to work both independently and collaboratively.

Ready to...

- **Use your imagination to find creative solutions to artistic problems?**
- **Collaborate on project-based assignments?**
- **Learn how to use technology to help you be more inventive?**
- **Be part of the business side of entertainment-related industries?**

Fun Fact:

Of all the career industries, the Arts, Media, and Entertainment sector requires perhaps **the greatest cross-disciplinary skills** because the work in this sector has a propensity to be largely project-based, requiring both independent work and interdependent management skills for career success.

Types of Careers

- Stage Manager
- Recording Studio Assistant
- Special Effects Coordinator
- Web Designer
- Prop Maker
- Photographer
- Graphic Designer/Artist
- Filmmaker
- Camera Operator
- Screen Writer
- Photojournalist
- Music Minister
- Radio/Television Broadcaster
- Gaffer
- Negative Cutter
- Key Production Grip

Salary Snapshot

- Musicians & Singers \$59,384 / \$28.55 hourly
- Writers & Authors \$54,018 / \$25.97 hourly
- Film & Video Editors \$62,504 / \$30.05 hourly
- Camera Operators \$53,768 / \$25.85 hourly
- Photographers \$51,085 / \$24.56 hourly
- Broadcast Technicians \$59,738 / \$28.72 hourly
- Sound Engineering Technicians \$59,758 / \$28.73 hourly
- Commercial & Industrial Designers \$64,626 / \$31.07 hourly

Industry Sector Pathways:

- Animation, 3D Animation, Motion Graphics
- Audio Production, Radio Production
- Audio/Music Technology, Music Industry Studies, Commercial Music
- Dance, Pilates
- Film/Television/Video Production/Electronic Media
- Journalism
- Multimedia: Art/Digital Media, Graphic Design
- Music Performance, Jazz, Piano
- Music Technology, Songwriting
- Photography, Digital Photography
- Post-Production Editing
- Printing Production
- Screenwriting
- Theater Arts, Technical Theater, Musical Theater
- Game Art/Design, Game Programming

Business & Entrepreneurship

At a Glance...

Who says more money means more problems? The Finance and Business industry sector is a critical component of the U.S. economy and employs more than 8 million people in careers ranging from bookkeeping to financial and investment planning. Advances in technology as well as market globalization and the expansion of banking and investment institutions around the world will continue to create exciting and challenging career opportunities in this industry for the foreseeable future.

With more than \$21.8 trillion in assets, the U.S. banking system supports the world's largest economy, but students who study business and finance don't just work for banks. Career opportunities for those with degrees related to business and finance are available in every sector of the economy and tend to require specific skills in mathematics, organization, time management, customer service, and communication.

Specializations typically emphasize accounting and finance concepts as they relate to international business, computer applications, taxes, investments, and business management.

Ready to...

- **Own your own business and work for yourself?**
- **Manage a team of employees?**
- **Work with financial records to make sure everything adds up?**
- **Be part of a corporate organization?**
- **Understand how local, state, national, and global economies work?**

“

Ever since I was 16, I knew I wanted to be an entrepreneur. I've taken accounting, marketing, business, and it's helped me bring it all together. It's amazing what you can do with a business degree.

”

**– Justin G.
Business & Entrepreneurship
Mt. San Jacinto College**

Fun Fact:

Because all companies need people with business and financial expertise, persons trained in this sector are in demand across **all industries.**

Types of Careers

- Account Specialist
- Cost Estimator
- Tax Preparer
- Associate Accountant
- Administrative Assistant
- Office Manager
- Loan Specialist
- Credit Analyst
- Claims Examiner
- Tax Examiner
- Treasurer
- Underwriting Assistant
- Insurance Claims Agent

Salary Snapshot

- Sales Representatives \$59,530 / \$28.62 hourly
- General and Operations Managers \$98,613 / \$47.41 hourly
- Accountants & Auditors \$72,467 / \$34.84 hourly
- Market Research Analysts \$52,749 / \$25.36 hourly
- Executive Administrative Assistants \$65,541 / \$31.51 hourly
- Real Estate Sales Agents \$58,906 / \$28.32 hourly

- Leadership Development
- Logistics/Logistics Management
- Management, Supervision, Project Management
- Office Management, Executive Office Management

Education & Human Services

At a Glance...

If you are looking for a fulfilling career that makes a positive difference in the lives of children and adults, you might consider a job in the Education, Child Development, and Family Services sector. Professionals who follow this path tend to be good communicators with the ability to empathize with people from diverse backgrounds.

As populations increase and older teachers retire, this area will continue to be one of the fastest-growing industry sectors in the nation despite the limits that state and local budgets often put on its growth.

According to the U.S. Department of Labor, enrollment in all grades, from preschool to college, will continue to grow, which means that teachers of all levels will be needed to meet the demand. Among the fastest-growing segments of this industry sector are childcare services; individual, family, community, and vocational rehabilitation services; and community and residential elder care services.

Ready to...

- *Make a measurable difference in people's lives?*
- *Engage with diverse communities of children and adults?*
- *Explain complex ideas in ways that are easily accessible to learners of all types?*

Fun Fact:

The Education, Child Development, and Family Services sector boasts **299,150** job openings every year—but only **69,404** graduates with the right education to fill them!

Types of Careers

- Preschool Teacher
- Teacher Assistant
- Head Start Teacher
- Special Education Aide
- Parent Educator
- Consumer Credit Manager
- Property Manager
- Consumer Product Tester
- Insurance Representative

Salary Snapshot

- Education & Childcare Administrators
\$41,933 / \$20.16 hourly
- Library Technicians \$46,322 / \$22.27 hourly
- Special Education Teachers
\$77,064 / \$37.05 hourly

- Child, Family & School Social Workers
\$49,046 / \$23.58 hourly
- Training & Development Specialists
\$64,522 / \$31.02 hourly
- Elementary School Teachers \$92,539/ \$44.49hourly
- Community & Social Service Specialists
\$49,754 / \$23.92 hourly

Industry Sector Pathways:

- Child Development
- Child Development Site Supervisor
- Child Development Teacher, Assistant/Associate/Master Teacher
- Day Care Provider, Family Day Care
- Early Childhood Education (ECE), ECE 12 Core Units
- Early Childhood Specializations: Infant, Toddler, Early Intervention & Inclusion
- Education Paraprofessional
- Education Technology
- Gerontology, Community Caregiver
- Interpretation: Community Interpretation
- Sign Language Interpreting, American Sign Language
- Teacher Preparation, Elementary Teacher Education

Energy, Construction & Utilities

At a Glance...

The United States is not only one of the world's leading suppliers of energy, it is also one of its largest consumers. To serve this ever-expanding market, the Energy, Construction, and Utilities sector employs technicians in electrical, mechanical, and construction jobs as well as architects, engineers, business managers, sales/marketing professionals, and public policy specialists.

With the increase of public and governmental interest in renewable energy, clean energy generation, and energy efficiency, job opportunities across the energy spectrum are growing rapidly and will continue to do so, especially since 40% of the existing workforce will be eligible for retirement in the next five years. As a result, employers will need skilled workers for traditional energy jobs as well as future energy-related positions. While this sector consists of many different kinds of companies and products, skills developed in one area are generally transferable to others.

In California alone, this sector accounted for 7 percent of all new job growth, according to the 2019 Energy Employment Report. These opportunities boast high salaries, with construction laborers averaging \$47,190 per year and managers drawing more than \$110,000. Especially strong demand is projected for heating, ventilation, and air Conditioning (HVAC) technicians, electricians, plumbers and pipefitters, utility workers, engineers, and a wide range of business professionals. According to some estimates, jobs in the energy and the environment sector could triple over the next decade.

Ready to...

- **Work with state-of-the-art technology and machines?**
- **Balance energy needs with environmental concerns?**
- **Learn a practical trade that is transferable to any location?**
- **Be part of an industry with a potentially global impact?**

“

[They] had an answer to every question I had. I was very fortunate that the Machining program had the latest software of Mastercam/Solid works with updated HASS CNC, mills, lathes, and grinders.

”

– Guillermo Martinez
San Bernardino Valley College alum

Fun Fact:

California has set the goal that by the year 2030, **50%** of the state’s buildings will consume **zero net energy**. This challenge can only be met with a highly skilled workforce.

Types of Careers

- Electronic Technician
- Maintenance Supervisor
- Heating/Ventilation/AC (HVAC) Technician
- Electrician
- Construction Supervisor
- Computerized Numerical Control (CNC) Technician
- Computer-Aided Design (CAD) Technician
- Building Constructor
- Automotive Control System Technician
- Solar Technician
- Sub-Contractor

Salary Snapshot

- Carpenters \$49,525 / \$23.81 hourly
- First-Line Supervisors of Construction Trades and Extraction Workers \$63,814 / \$30.68 hourly
- Plumbers, Pipefitters & Steamfitters \$54,912 / \$26.40 hourly
- Construction Managers \$71,406 / \$34.33 hourly
- Operating Engineers & Other Construction Equipment Operators \$76,253 / \$36.66 hourly
- Heating, Air Conditioning & Refrigeration Mechanics and Installers \$47,424 / \$22.80 hourly
- Structural Iron and Steelworkers \$69,618 / \$33.47 hourly
- Construction & Building Inspectors \$82,077 / \$39.46 hourly
- Sheet Metal Workers \$56,680 / \$27.25 hourly
- Water and Wastewater Treatment Plant & Systems Operators \$71,323 / \$34.29 hourly
- Electricians \$49,878 / \$23.98 hourly

Industry Sector Pathways:

- Building Automation Control, Facilities Operations Technician
- Building Inspection, Inspection Technology
- Construction Technology/Management, Building Construction
- Electrician, Electrician Apprentice, General/Basic Electrician
- Heating, Ventilation, Air Conditioning & Refrigeration
- Plumbing
- Residential Maintenance
- Woodworking
- Land Surveying

Health

At a Glance...

The medical and health-related industry is one of the largest employers in California, employing nearly 1.7 million professionals across a wide range of well-paying career opportunities. Employment in healthcare occupations is projected to grow at a rate of 15% from 2019 to 2029, adding more jobs than any other occupational groups and maintaining its position as one of the top 5 grossing industries in the United States.

Programs of study in this sector can lead you in many different directions, including nursing, biotechnology research, diagnostic services, health informatics, support services, and physical therapy. While many of the careers in this sector require advanced-level preparation, there are many options available for students of various aptitudes, interests, abilities, and degree levels.

While significant expansion will continue across all occupational segments, the Health Workforce Initiative notes especially high growth opportunities for certified nursing assistants, home health aides, and licensed vocational nurses.

Ready to...

- *Care for people who are sick and suffering?*
- *Research and perform experiments using the latest technology?*
- *Collect data in order to better understand a disease or treatment?*
- *Assist doctors and nurses with their daily activities?*

It's a really great program. They give us real-life scenarios, so we're always ready. And when you finish, you're going to have a career waiting for you at the end.

*– Kristen Lord
Nursing Student
Riverside City College*

Fun Fact:

The average annual wage for this sector in California is over **\$100,000**.

Types of Careers

- Certified Nursing Assistant (CNA)
- Pharmacy Technician
- Registered Nurse (2 yr)
- Paramedic
- Operating Room Technician
- Medical Records Technician
- Emergency Medical Technician (EMT)
- Licensed Vocational Nurse (LVN)
- Radiology Technologist
- Dental Lab Technician
- Respiratory Therapist
- Cardiovascular Technologist
- Dental Hygienist
- Diagnostic Medical Sonographer
- Biomedical Technician
- Environmental Services Technician
- Gerontologist

Salary Snapshot

- Registered Nurses \$109,075 / \$52.44 hourly
- Licensed Vocational Nurses \$59,717 / \$28.71 hourly
- Substance Abuse, Behavioral Disorder and Mental Health Counselors \$53,539 / \$25.74 hourly
- Medical and Health Services Managers \$123,094 / \$59.18 hourly
- Social Workers \$49,046 / \$23.58 hourly
- Phlebotomists \$45,386 / \$21.82 hourly
- Dental Hygienists \$99,070 / \$47.63 hourly

Industry Sector Pathways:

- Alcohol/Drug Studies, Dual Diagnosis
- Athletic Training
- Dental Assisting, Dental Hygiene
- Kinesiology: Coaching Professions
- Kinesiology: Fitness/Recreation Professions
- Medical Assisting, Medical Transcription
- Medical Front Office, Coding/Billing, Electronic Records
- Nursing Assistant, Home Health Aide
- Nursing Specialty: Acute Care Technician, Mobile Intensive Care, Critical Care
- Nursing: LVN
- Nursing: Registered Nurse, Associate Degree Nursing (ADN)
- Pharmacy Technician
- Phlebotomy
- Psychiatric Technology
- Radiologic Technology, Sonography
- Respiratory Therapy/Care
- Sports Medicine

Information & Communication Technologies (ICT)

At a Glance...

More than a quarter of the \$7.85 trillion global information and communication technology market resides in the United States, where it has created upwards of 12.4 million jobs. In California alone, where Silicon Valley has become synonymous with the rapidly evolving world of technology, this industry accounts for 10.3% of the state's economy while providing more than 1 million jobs across the state.

Information and communication technology students learn about the design, development, maintenance, and management of hardware, software, multimedia, and systems integration services. Because of the central role that technology plays in all industries, IT professionals are and will continue to be in great demand in every sector of the economy. Specific areas of future growth are likely to be in the areas of cloud computing, the collection and storage of big data, and information security.

Ready to...

- ***Work on a team of professionals to develop cutting-edge products and solutions?***
- ***Learn job skills that are transferable to almost any location and industry?***
- ***Troubleshoot a variety of software and hardware problems?***

Fun Fact:

This sector boasts almost **100,00 annual job openings** and an average annual salary of **\$111,740**.

Types of Careers

- Computer Support Specialist
- LAN Support Technician
- Software/Hardware Installer
- Telecommunications Specialist
- Network Administrator
- Data Communications Specialist
- Computer Graphic Artist
- Desktop Publisher
- Multimedia Specialist
- Web Designer
- Webmaster
- Database Administrator
- Technical Writer

Salary Snapshot

- Software Developers \$97,573 / \$46.91 hourly
- Computer User Support Specialists \$57,928 / \$27.85 hourly
- Computer Systems Analysts \$87,090 / \$41.87 hourly
- Information Security Analysts \$122,283 / \$58.79 hourly
- Computer Network Support Specialists \$59,176 / \$28.45 hourly
- Computer Programmers \$87,880 / \$42.25 hourly
- Computer Network Architects \$115,003 / \$55.29 hourly
- Database Administrators \$99,965 / \$48.06 hourly

Industry Sector Pathways:

- Web Design/Development
- Microsoft Certified Systems Engineer (MSCE)
- Communication Technology: Sound, Wireless, Electronic
- Computer Information Systems, Software/Computer Applications
- Computer Programming, C++, Java
- Computer Science
- Database Design/Management, MIS, Systems Development, UNIX, MYSQL
- Hardware Specialist, Computer Maintenance, Help Desk, IT Technician
- Information Security, Cyber Security, Computer Forensics
- Information/Computer Technology/Literacy
- Internet/Web Authoring, E-Commerce, Mobile Applications
- Networking/Computer Support, CISCO: CCNA & CCNP, A+, N+

Public Services

At a Glance...

A public service is one that is provided by the government for the benefit of its citizens. Generally speaking, “government jobs” are highly prized because of their benefits and retirement packages, and they encompass working in everything from public safety and emergency response to community outreach and vocational counseling. Students who want to make a difference in their communities by serving the public’s interest should consider working in this sector.

Because jobs in this sector offer some of the best benefits and retirement packages available, their job markets are highly competitive. As a result, students will generally find more opportunity and less competition for these jobs in their local communities.

Ready to...

- ***Serve your local community?***
- ***Provide support to culturally diverse groups of people at all income levels?***
- ***Make sure the communities in which people live are safe and secure?***

Fun Fact:

Public service professions **offer many career opportunities**, including career pathways in Public Safety, Emergency Response, and Legal Practices.

Types of Careers

- Police Officer
- Probation or Correctional Officer
- Correctional Officer and Jailer
- Police Patrol Officer
- Sheriff and Deputy Sheriff
- Firefighter
- Fire Apparatus Engineer
- U.S. Customs Officer
- Eligibility Worker
- Vocational Counselor
- Employment and Training Technician
- Residential Counselor
- Substance Abuse Counselor
- Licensed Psychiatric Technician
- Mental Health Worker
- Paralegals and Legal Assistant

Salary Snapshot

- Police and Sheriff's Patrol Officers

Retail, Tourism & Hospitality

At a Glance...

The travel and tourism market is one of the world's largest industries, with a global economic impact of over 9 trillion U.S. dollars in 2019. In the U.S. alone, this industry supports nearly 9 million jobs. Whether you have a passion for food, travel, sports, or nutrition, California's unique position as premier travel destination makes this an exciting sector to be a part of.

Certificate and associate degrees available in Retail, Hospitality, Tourism, and Recreation Management are not only transferable to related CSU and UC programs, but will also qualify you for many immediate employment opportunities. Since many of these sectors depend on the work of part-time employees, opportunities abound for students who want to gain valuable work experience while earning a paycheck and going to school. As a bonus, these jobs often offer unique travel options and industry discounts.

Ready to...

- ***Work with culturally diverse people from around the world?***
- ***Provide services to customers and tourists?***
- ***Foster relationships with clients and be a "people person"?***

Fun Fact:

The sector encompasses three distinct, yet interrelated, career pathways: Food Science, Dietetics, and Nutrition; Food Service and Hospitality; and Hospitality, Tourism, and Recreation.

“

[What's] so great about this program is that you're literally learning every single position in a restaurant ... And, I mean, who wouldn't want to hire someone that's a total package?

”

**– Elizabeth Vazquez
Culinary Arts Program
Riverside City College**
