A LIVING WAGE. RIGHT NOW.

The agriculture, water, and environmental technology industry employs **more than 600,000 people** in California, with more than **4,000 positions added** each year.

Sectors like food safety and animal science are facing critical shortages of qualified workers, **driving demand** for career-educated professionals *even higher!*

90% of Orange County career education students in agriculture-related careers reported finding a job within six months of completing their certifications or degrees.

A PART OF ORANGE COUNTY'S PAST, PRESENT AND FUTURE...

Our region's history is rooted in agriculture, and with technology continuing to revolutionize food, water, and environmental technologies, so is its *future*.

Your career education in Agriculture, Water, and Environmental Technology puts you at the **center of innovation** in this fast-changing industry, opening doors to bigger paychecks and better opportunities for advancement. In fact, **9 out of 10 Orange County/Los Angeles community college grads** attending agriculture-related programs reported finding an industry-relevant career **within six months**.

Looking for a future-focused career that's part of our past and *built to last*? It all starts with a hands-on higher education.

California's agricultural exports total **more than \$20 billion** annually, accounting for more than 11% of the nation's food.

GROWING OPPORTUNITIES...

California's agriculture, water, and environmental technology industries employ more than 600,000 people, and **salaries are on the rise!**

FACT

Demand for soil and plant scientists is expected to grow 35% by 2022, almost **five times the national average** for all jobs!
