

AGRICULTURE, WATER, AND ENVIRONMENTAL TECHNOLOGIES

**A living wage.
A limitless future.**

Orange County was built on the hard work and innovation of agricultural professionals.

Today, with technology revolutionizing the way we approach farming, sustainability, food science, water safety, and more, demand for well-educated professionals in this industry is *still growing!*

The Seeds of Success...

- California's agricultural exports total **more than \$20 billion** annually, accounting for more than 11% of the nation's food.
- **"Green technologies"** are driving industry innovation and growth, with our state increasingly committed to environmentally sound methods of food production.
- **90%** of career education grads in agriculture-related careers reported finding a job within six months of attending an Orange County community college!

Orange County needs agricultural innovators! Apply today.
