A LIVING WAGE. RIGHT NOW.

California is home to 48,000 energy-, utility-, and efficiency-related businesses.

The energy, construction, and utility industries account for more than 450,000 jobs in California.

Since 2009, the utilities industry has seen annual **salaries grow by more than 25%.**

ENVISIONING A MORE EFFICIENT ORANGE COUNTY

Our state is **built on a foundation** of infrastructure. But with new policy and technology driving innovation in the energy, construction, and utilities industries, that foundation is shifting.

California is now home to **more than 48,000 utility- and energy-related businesses**, and career professionals with next-level skills are finding themselves in demand. As the industry adapts to efficiency-focused mandates such as SB 350 Clean Energy and Pollution Reduction Act and Title 24 Building Energy Efficiency Standards, the need for tech-savvy professionals with the latest knowledge has become critical.

Opportunities are building in Orange County, and with a career education in an Energy, Construction, and Utilities program, you're **empowered to earn more!**

career education grads in this sector reported higher wages, for an average earnings increase of 42%.

POWERING THE WORKFORCE.

The energy, construction, and utilities sector is one of Orange County's biggest and most stable employers. Turn your higher education into a versatile, high-paying career in this future-focused field.

FACT 76% of students in this sector report higher wages, for a 42% average increase!
